Referral Requirements	UnitedHealthcare (UHC) provides you the freedom to see any network physician from our broad network of physicians and other health care professionals for office visits, at any time, without a referral from a primary physician. If specific covered health services are not available from a network physician, you may be eligible for benefits when covered health services are received from non-network physicians. In this situation, your network physician must notify UHC Care Coordination to request a network gap exception. You and your physician will be notified of the decision in writing.
Prior Authorization Requirements	<p>In most cases, UHC does not require prior authorization before a physician can begin treatment. In general, network providers are responsible for notifying UHC's Care Coordination before they provide services to you. However, you are responsible for notifying UHC's Care Coordinator before obtaining dental/oral surgery services or if you are admitted to a non-network hospital due to an emergency. (Please refer to the Outpatient Mental Health Network Policy section for requirements pertaining to mental health and substance abuse treatment.)</p> <p>For in-network services, while the physician or other health care professional is responsible for notification to UHC, the ultimate responsibility resides with the member to ensure that this process was completed. Questions concerning Care Coordination can be answered by calling the telephone number on your ID card.</p>
Medicare Claims Procedure	If Medicare is the primary carrier, claims must be submitted to Medicare first. After Medicare processes the claim you will receive an Explanation of Medicare Benefits (EOMB). An itemized bill and a copy of the EOMB should be submitted to UHC.
OnLine Services	<p>As a UHC member, you will have access to www.myuhc.com for instant, convenient online access to health information.
