Please complete this form if you wish to *change* your current sort option for your January 1, 2019, *Statement of Benefits*. **If you do not return this form by the due date, ETF will use the same sort option used for the previous year to sort your employees' statements. Check only one option.** All statements for active employees will be delivered to you, and your sort option will determine the order in which they will be sorted.

Note: Distribution Codes are codes that you designate to help sort your employees' statements when they are delivered in bulk. For example, distribution codes could signal "School A" or "School B," or list the individual employee's department. They are not required but can be very helpful when distributing the statements.

This form must be returned to ETF by February 28, 2019. *Note:* State employers using the STAR system do not need to submit this form.
