NOTE: For purposes of this slide, a participant is defined as an individual with an account balance at any time during the given year and will not correspond to any year-end participant counts represented elsewhere in this report.

All of these figures are re-run each year, and due to the return of excess contributions, account corrections, etc., the numbers may vary slightly from the previous year's annual reports.

The State of Wisconsin Deferred Compensation Board 98971-01 - Web & App Stats		1 Jan - 31 Dec 2021
Glossary		
Avg. Session Duration ("Avg. Time on Site")	The amount of time a Web User spent interacting with a website or app during a single Session.	
Pages/Session	Total Pageviews divided by total Sessions.	
Pageviews	A single view of a page, which most often involves a change to the URL. A Pageview is an instance of a page being loaded (or reloaded) in a browser. Pageviews is a metric defined as the total number of pages viewed.	
Participant Id	A unique identifier associated to web traffic at login to link Individuals and (by association) Plans to a Participant across multiple reporting systems.	
Plan Id	A unique identifier ("ga id") associated to web analytics traffic at login to link Web User activity to specific Plans.	
Screens/Session	Total Screenviews divided by total Sessions.	
Screenviews	A single view of an app screen, which most often involves a change to the interface. A Screenview is an instance of a new screen being loaded (or reloaded) on a device. Screenviews is a metric defined as the total number of screens viewed.	
Sessions ("Web Visits")	A single "Visit" to a website, which can include one or more Pageviews. A Session persists and is counted only once, up to 30 minutes after the last User interaction during the site Visit. By default, if a User is inactive for 30 minutes or more, new activity is attributed to a new Session.	
Sessions/User	Total Sessions divided by the number of Unique Users.	
Unique Ppts ("Participants")	A distinct Participant detected by log-in to the Participant Web site or App. For the time frame in question, each log-in is only counted once, regardless of how many times a Participant logs in during that period. Calculated by counting the concatenated value "Participant Id + Plan Id".	
Unique Users ("Web Users")	A single Device and Browser pair uniquely identified by a Google Analytics browser cookie. A Web User ≠ person if they utilize multiple devices (and are assigned unique cookie values). A Web User can be unique and counted again ("new") in Google Analytics if the browser or device is changed, "private" mode is used, or cookies are deleted.
