CORRESPONDENCE MEMORANDUM

DATE: June 9, 2011
TO: Employee Trust Funds Board
FROM: Robert Willett, CPA
Chief Trust Financial Officer
Office of Budget and Trust Finance
SUBJECT: Duty Disability Plan Actuarial Valuation

Staff requests that the Employee Trust Funds Board (Board) approve the "Duty Disability Program Actuarial Valuation as of January 1, 2011."

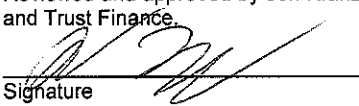

Deloitte Consulting has completed their annual actuarial valuation of the Duty Disability plan. Deloitte reported that the plan's accrued funding shortfall improved from 10.2% of payroll to 6.6% of payroll in 2010, and the plan is on track to be fully-funded within four years. No changes to premiums are being recommended at this time.

This valuation is the first comprehensive valuation of the program, replacing the Board's premium setting valuation as well as the more specialized study based on standards set by the Governmental Accounting Standards Board (GASB) and used to meet our financial reporting requirements. Because this valuation is designed to meet both purposes, the report contains extensive additional disclosures that were not previously included in your report.

This valuation also measures a slightly higher liability than your previous valuations. This is the result of recognizing a liability for active members who may become disabled in the future rather than waiting for them to become disabled before recognizing the liability.

Michael de Leon from Deloitte Consulting will be at your June 23 Board meeting to present the results of this valuation and answer any questions you may have.

January 1, 2011
Actuarial Valuation

Executive Summary

The purpose of this report is to provide the actuarial value of assets and actuarial accrued liability of the Wisconsin Duty Disability Program (“the Plan”) as of the valuation date as well as the changes in these values over the past year. This information is important to provide an understanding of the sufficiency of the contribution policy to meet the future obligations of the Plan. This report also provides the information necessary for the Department of Employee Trust Funds’ financial statement disclosures under the Statement of Governmental Accounting Standards No. 43 (GASB 43).

Prior to 2011, the review of the sufficiency of the contribution policy and the GASB 43 disclosure information were contained in separate reports. The prior actuarial review of the contribution policy was based on the liability for participants receiving benefits, the liability for participants who had become disabled but not yet started receiving benefits, and a reserve for conservatism.

The January 1, 2011 actuarial valuation is based on the standards required under GASB 43, which necessitate that the liabilities attributable to the current active population be accrued during their working career. Therefore, a liability is determined for active participants based on expected future disablements in addition to current disabled participants and survivors.

As of January 1, 2011, the Plan is 83% funded on an actuarial basis. The current contribution policy is projected to result in the Plan becoming fully funded in 2014. It is our recommendation that no change be made to the contribution policy at this time; however, it would be appropriate for the Board to consider future changes in the contribution policy as the level of funding improves.

A brief summary of the results of the current and prior GASB 43 valuation are shown below (dollar values in millions):

	<u>2010</u>	<u>2011</u>
Actuarial Accrued Liability		
Actives	\$ 147	\$ 129
Disableds and Survivors	<u>366</u>	<u>370</u>
Total	\$ 513	\$ 499
Actuarial Value of Assets	<u>\$ (373)</u>	<u>\$ (413)</u>
Unfunded Actuarial Accrued Liability	\$ 140	\$ 86
Funded ratio	73%	83%
Annual Required Contribution (GASB 43)	\$ 53	\$ 50

ACTUARIAL VALUATION CERTIFICATION

This report presents the results of the actuarial valuation of the State of Wisconsin Duty Disability Program (“the Plan”) as of January 1, 2011.

The State of Wisconsin provided the participant data, financial information and plan descriptions used in this valuation. The actuary has checked the data for reasonableness, but has not independently audited the data. The actuary has no reason to believe the data is not complete and accurate, and knows of no further information that is essential to the preparation of the actuarial valuation.

Actuarial information under Government Accounting Standards Board Statement No. 43 (GASB 43) is for purposes of fulfilling plan financial accounting requirements. The results have been made on a basis consistent with GASB 43 and are based upon assumptions prescribed by the State of Wisconsin. Determinations for purposes other than meeting plan financial accounting requirements may be significantly different from the results reported herein.

In our opinion, all costs, liabilities, rates of interest, and other factors under the Plan have been determined on the basis of actuarial assumptions and methods that are each reasonable (or consistent with authoritative guidance), taking into account the experience of the Plan and future expectations and that, when combined, represent our best estimate of anticipated experience under the Plan.

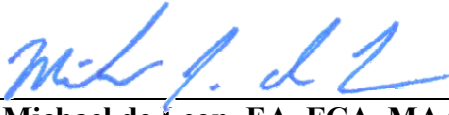

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operations of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the Plan's funded status); and changes in plan provisions or applicable law.

Our scope did not include analyzing the potential range of such future measurements, and we did not perform that analysis.

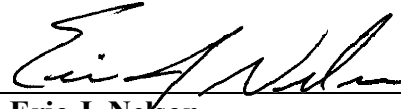

The undersigned with actuarial credentials collectively meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein.

Any tax advice included in this written communication was not intended or written to be used, and it cannot be used by the taxpayer, for the purpose of avoiding any penalties that may be imposed by any governmental taxing authority or agency.

Section I - Background and Comments

The Governmental Accounting Standards Board released the Statement of Governmental Accounting Standards No. 43 (“GASB 43”) and No. 45 (“GASB 45”) in 2004. These statements require trusts (GASB 43) and employers (GASB 45) to accrue the cost of Postretirement Welfare Plans while employees who will receive these benefits are providing services to the employer. The State of Wisconsin was a Phase 1 entity for implementation of GASB 43 and was therefore required to adopt GASB 43 for the financial period beginning January 1, 2006. The purpose of this report is to provide the information required under GASB 43 to be disclosed on the Plan’s financial statements for the financial period ending December 31, 2011.

Plan Overview

The State of Wisconsin provides duty disability benefits for protective occupation participants at no cost to the employees. There were no changes to the plan provisions since the previous valuation. The substantive plan benefits are described in Section XI of this report.

Assumptions

Where applicable, the assumptions used in this actuarial valuation were based on the assumptions used for the WRS actuarial valuation as of December 31, 2010. Some additional or differing assumptions were required to handle issues unique to the plan and estimate the potential offsets to the Duty Disability benefits. The actuarial methods and assumptions are described in Section X of this report.

Since the January 1, 2010 actuarial valuation, the following assumptions were changed: disability rates for Protective with and without Social Security and the percentage of participants assumed to take a separation benefit. These changes combined to decrease the Actuarial Accrued Liability by a combined \$24.1 million.

Actuarial Experience

During 2010, the market value of assets experienced an estimated investment return of 12.3%. Compared to the investment return assumption of 7.8%, there was a market value gain of about 4.5% or \$15.5 million. The Actuarial Value of Assets uses a method to smooth investment gains and losses after January 1, 2007 over a 5-year period. On an actuarial value basis, there was an asset loss of \$9.5 million from the partial recognition of market value gains and losses from 2007 to 2011. The effective rate of return on investments on an actuarial value basis was 4.8%.

There was also a liability gain of \$14.0 million in 2010 primarily due to lower than expected salary and disability benefit increases.

**State of Wisconsin
Duty Disability Program
January 1, 2011
Actuarial Valuation**

Funding Policy

The program is funded entirely by employer contributions, which vary by experience. The contribution policy does not meet the GASB 43 requirements for determining an Annual Required Contribution (ARC), which requires using a consistent amortization policy for the unfunded actuarial accrued liability; therefore, an amortization policy for the purpose of determining the ARC under GASB 43 was created. The initial amortization period was selected to approximate the actual contribution policy as of January 1, 2006. Subsequent gains and losses were amortized over 15 years.

The actual contribution policy resulted in employer contributions that were \$1.3 million less than the ARC. Additional details about the policy used to determine contributions under this plan can be found in Section XI.

Section II – Summary of Actuarial Valuation Results

Presented below are the actuarial valuation results for the State of Wisconsin Duty Disability Program. Dollar amounts are in thousands.

	<u>January 1, 2010</u>	<u>January 1, 2011</u>
a. Actuarial Accrued Liability		
- Actives	\$ 146,874	\$ 128,702
- Disableds and Survivors	<u>365,911</u>	<u>370,332</u>
- Total	\$ 512,785	\$ 499,034
b. Actuarial Value of Assets	\$ 373,048	\$ 412,988
c. Unfunded Actuarial Accrued Liability (UAAL): (a) – (b)	\$ 139,737	\$ 86,046
d. Funded ratio: (b / a)	72.7%	82.8%
e. UAAL as a percentage of covered payroll: (c / h.2)	10.2%	6.6%
f. Annual Required Contribution (ARC)		
- Normal Cost	\$ 14,652	\$ 12,907
- Amortization Payment	34,681	33,813
- Interest to End of Year	<u>3,848</u>	<u>3,644</u>
- Total	\$ 53,181	\$ 50,364
g. Discount rate	7.8%	7.8%
h. Census data used		
1. Count of Covered Participants		
- Actives	22,883	22,716
- Disableds and Survivors*	<u>938</u>	<u>957</u>
- Total	23,821	23,673
2. Covered payroll	\$ 1,370,978	\$ 1,297,690
3. Benefit payments	\$ 30,338	\$ 29,410

* Includes 57 disabled participants in 2010 and 57 in 2011 with zero benefits.

Section IV – Actuarial Value of Assets

The following table develops the Actuarial Value of Assets as of January 1, 2011. Dollar amounts are in thousands.

1. Market value of assets as of January 1, 2010	\$ 336,986
2. Contributions*	51,861
3. Benefit payments*	(30,338)
4. Assumed earnings at 7.80% on (1), (2), and (3)	<u>27,124</u>
5. Expected assets at January 1, 2011: (1) + (2) + (3) + (4)	\$ 385,633
6. Actual assets at January 1, 2011	\$ 401,162
7. Investment gain (loss)	
a. Gain (loss) for 2010: (6) – (5)	\$ 15,529
b. Gain (loss) for 2009	38,767
c. Gain (loss) for 2008	(120,301)
d. Gain (loss) for 2007	3,057
8. Gain (loss) not yet reflected in actuarial value of assets	
a. 80% of 2010 gain (loss)	\$ 12,423
b. 60% of 2009 gain (loss)	23,260
c. 40% of 2008 gain (loss)	(48,120)
d. 20% of 2007 gain (loss)	<u>611</u>
e. Total gain (loss) not yet reflected in actuarial value of assets:	(11,826)
9. Preliminary actuarial value of plan assets as of January 1, 2011: (6) - (8e)	\$ 412,988
10. Maximum and minimum values:	
a. 80% of market	\$ 320,930
b. 120% of market	481,395
11. Actuarial value of assets as of January 1, 2011: (item (9) but not less than (10.a) or greater than (10.b))	\$ 412,988
12. Estimated rate of return on actuarial value of assets	4.80%

* Contributions and Benefit payments are assumed to be made/paid evenly throughout the year.

Actuarial Valuation**

Section V – Development of Unfunded Actuarial Accrued Liability

Presented below is the development of the Unfunded Actuarial Accrued Liability as of January 1, 2011, which is the excess of the Actuarial Accrued Liability over the Actuarial Value of Assets. The Actuarial Accrued Liability is the portion of the Present Value of Future Benefits (PVFB) accrued to date. The Present Value of Future Normal Costs represents the portion of the PVFB expected to accrue in the future, based on the current population. Dollar amounts are in thousands.

a.	Present Value of Future Benefits	
	Actives	\$ 211,091
	Disableds and Survivors	<u>370,332</u>
	Total	\$ 581,423
b.	Present Value of Future Normal Costs	\$ 82,389
c.	Actuarial Accrued Liability: (a) – (b)	\$ 499,034
d.	Actuarial Value of Assets	\$ 412,988
e.	Unfunded Accrued Actuarial Liability as of January 1, 2011: (c) – (d)	\$ 86,046

**State of Wisconsin

Actuarial Valuation**

Section VI – Actuarial Experience

Actuarial gains and losses arise from experience different from that assumed, changes in actuarial assumptions and methods, and changes in plan provisions. The following summarizes the changes in the Unfunded Actuarial Accrued Liability (UAAL) due to these sources from January 1, 2010 to January 1, 2011. Dollar amounts are in thousands.

a.	UAAL as of January 1, 2010	\$ 139,737
b.	Normal Cost for 2010	14,652
c.	Annual Required Contribution for 2010	(53,181)
d.	Interest on UAAL and Normal Cost at 7.8%	<u>12,043</u>
e.	Expected UAAL as of January 1, 2011	\$ 113,251
f.	2010 (Gain)/Loss	<u>(27,205)</u>
g.	UAAL as of January 1, 2011	\$ 86,046

Sources of 2010 (Gain)/Loss*

(Gain)/Loss due to (over)/underpayment of ARC	\$ 1,319
(Gain)/Loss due to assumption changes	(24,054)
(Gain)/loss due to demographic experience	(13,968)
(Gain)/loss due to asset returns	<u>9,498</u>
Total	\$ (27,205)

* See Section I for additional details regarding the sources of the 2010 gains and losses.

Actuarial Valuation**

Section VII – Determination of Annual Required Contribution

GASB 43 requires the disclosure of the Annual Required Contribution. The following is a brief explanation of the components of the Annual Required Contribution:

- **Normal Cost:** The portion of the total present value of benefits attributed to employee service during the current fiscal year.
- **Amortization Payments:** closed, 8-year level percent of pay amortization of the initial unfunded actuarial accrued liability, and closed 15-year level percent of pay amortizations of any future experience gains and losses, assumption changes, and contribution deficiencies or excess contributions (contributions less than or greater than the Annual Required Contribution, respectively). The total amortization of the UAAL, determined by the preceding method, will not be less than the amount necessary to create an equivalent single amortization period of 30 years (consistent with GASB 43 requirements for disclosure).

Presented below is an illustration of the Annual Required Contribution for the fiscal year ending December 31, 2011. Dollar amounts are in thousands.

**Annual Required Contribution
for Fiscal Year Ending
December 31, 2011**

a.	Normal Cost	\$ 12,907
b.	Amortization Payment	33,813
c.	Interest to End of Year	<u>3,644</u>

**State of Wisconsin
Duty Disability Program
January 1, 2011
Actuarial Valuation**

Section X - Summary of Actuarial Methods and Assumptions

Actuarial Cost Method

The Actuarial Cost Method used in this valuation to determine the Actuarial Accrued Liability and the Annual Required Contribution (ARC) was the Projected Unit Credit Method with service prorated to date of disability.

Under this method, the total present value of benefits is determined by projecting the benefit to be paid after the disability date and discounting those amounts to the valuation date. The Normal Cost is computed by dividing the total present value of benefits by the participant's total service (actual plus expected service) to date of disability.

The Actuarial Accrued Liability under this method represents the total present value of benefits multiplied by the ratio of the participant's actual service to date to expected service at decrement.

The Actuarial Accrued Liability for participants currently receiving payments is calculated as the actuarial present value of future benefits expected to be paid. No normal cost is payable for these participants.

This actuarial cost method is one of the GASB 43 approved methods.

Actuarial Value of Assets

The Actuarial Value of Assets is determined using a Five-Year Smoothed Market Value, with Phase-In. Under this method, the Actuarial Value of Assets equals the Market Value of the fund balance as of January 1, 2006. However, in each subsequent year, the Actuarial Value of Assets equals the Market Value less a decreasing fraction (4/5, 3/5, 2/5, etc.) of the prior five years of investment gains and losses compared to the assumed rate of investment return (currently 7.80%). Furthermore, the resulting Actuarial Value must fall within 80% to 120% of Market Value.

Amortization of Unfunded Accrued Actuarial Liability

The Unfunded Accrued Actuarial Liability (UAAL) is the excess of the Accrued Actuarial Liability over the Actuarial Value of Assets. This excess will be amortized in the following ways:

- 8-year, level percent of pay, closed amortization period for the initial UAAL;
- 15-year, level percent of pay, closed amortization periods for future gains and losses; and

The total amortization of the UAAL, determined by the preceding method, will not be less than the amount necessary to create an equivalent single amortization period of 30 years (consistent with GASB 43 requirements for disclosure).

Actuarial Valuation**

Section X - Summary of Actuarial Methods and Assumptions (continued)

Benefit Offsets: There are many potential offsets to the member's basic benefit. The following assumptions estimate those offsets.

<u>Offset</u>	<u>Valuation Estimate</u>
WRS Benefits and LTDI	<p>Assume 20% of members qualify for a WRS disability benefit or LTDI.</p> <p>Assume 10% of members under age 50 who do not qualify for a WRS disability benefit or LTDI elect to receive a WRS separation benefit.</p> <p>Assume other members commence a WRS retirement benefit at age 50 (requirement of plan).</p> <p>Benefits are based on plan provisions and actuarial assumptions stated above.</p>
Social Security	<p>Assume 10% of members covered by Social Security qualify for a Social Security disability award.</p> <p>Benefits are based on Social Security formula and assuming:</p> <ul style="list-style-type: none"> • 4.1% pay increases • 4.1% Social Security Taxable Wage Base increases • 3.0% cost-of-living adjustments
Unemployment Compensation:	<p>None (No offsets observed)</p>
Combined Offset from: <ul style="list-style-type: none"> • Worker's Compensation • Employer Earnings • Other Earnings 	<p>Assume 3% reduction to 75%/80% target benefit (Observed reduction from all these offsets was about 3.2% of target benefit. This observation does not include a review of income tax returns or one-time earnings offsets as observation is taken from the December Payroll of each year.)</p>

Duty Disability Program
January 1, 2011
Actuarial Valuation**

Section X - Summary of Actuarial Methods and Assumptions (continued)

Active Members Included:	Current eligible WRS active members were included only.
Expenses:	None included.
Future Service:	All members earn a full year of service in each calendar year.
Marital Status:	100% of members are married. Husbands are assumed to be three years older than their wives.
Dependents:	No dependent children are assumed to be covered at retirement.
Annual Benefit Increases:	Before age 60 (salary-indexed increases): 4.10% After age 60 (WRS dividend-based increases): 2.67%
Benefit Adjustment for Inactive Members:	The current benefits of inactive members were reduced by 8% under the assumption, consistent with recent experience, that not all benefit offsets have been reported.
Changes Since Prior Valuation:	The disability incident rate was updated to reflect more recent experience. The same rates are used for both the Protected with Social Security and Protected without Social Security participants. The percentage assumed of employees electing a WRS separation benefit was changed from 50% to 10%.

Duty Disability Program
January 1, 2011
Actuarial Valuation**

Section XI - Summary of Substantive Plan Provisions

Participants Included: State and local protective occupation active employees, and retirees and their survivors who are currently receiving duty disability program benefits

Benefit Eligibility: Member must satisfy all of the following

- injured while performing duties or contracted disease due to occupation
- disability is work-related
- disability is expected to be permanent

Also, the disability must result in one of the following

- reduction in pay or position
- assignment to light duty
- retirement
- impairs promotional opportunities

Member Benefits: 80% of salary (75% for local employees who are not eligible for a Social Security disability award and not eligible for a WRS disability benefit or LTDI). For local members who have been terminated but not approved for WRS disability or LTDI only, the percentage is reduced by 0.5% for each month of WRS creditable service over 25, but not to less than 50%. For local members who have not been terminated or have been approved for WRS disability or LTDI, the percentage is reduced by 0.5% per month for every month over 30 years, but not to less than 50%. For all members, the offsets are as follows (with mandatory commencement ages in parenthesis if applicable):

- Any Social Security benefit based upon the participant's work record (age 62; if not already receiving SSDI)
- Unemployment compensation
- Worker's Compensation
- Any WRS retirement, separation, or disability benefit based upon member's earnings and service (age 50)
- all earnings from the employer where the disability occurred
- a percent of other earnings as follows:
 - 1/3 of earnings less than 40% of salary

**State of Wisconsin
Duty Disability Program
January 1, 2011
Actuarial Valuation**

Section XI - Summary of Substantive Plan Provisions (continued)

- 1/2 of earnings between 40% and 80% of salary
- 2/3 of earnings over 80% of salary

a 5% reduction for non-state members who have not filed a Worker's Compensation claim for permanent disability

Individuals receive an annual increase of either 1 or 2 below.

**Annual Increases in
Member Benefits:**

- 1) Social Security salary index for the following individuals:
 - under age 60, or
 - older than 60 and receiving a regular disability retirement or regular LTDI
- 2) Prior year's WRS core annuity dividend for the following individuals:
 - over age 60 and receiving special disability retirement or special LTDI, or
 - not receiving any regular disability retirement or LTDI, or
 - receiving a duty disability death benefit

**State of Wisconsin
Duty Disability Program

Actuarial Valuation**

Section XI - Summary of Substantive Plan Provisions (continued)

- Survivor Benefits:**
- State employees and pre-5/3/88 applications for local employees
- 1/3 of the participant's monthly salary at time of death to surviving spouse or domestic partner (State employees only), plus
 - \$15/month to the guardian of each unmarried child under the age of 18
 - not to exceed 65% of the participant's monthly salary at time of death
 - no annual adjustments
- Post-5/3/88 applications for local employees
- 1/2 of the participant's monthly salary at time of death to surviving spouse less other income sources that are based on the participant's earnings record, plus
 - 1/10 of the participant's monthly salary at time of death to each unmarried child under the age of 18
 - not to exceed 70% of the participant's monthly salary at time of death less offsets for other income
 - subject to annual adjustments based on salary indexing
- Cancer Presumptive Law (state and local)
- 70% of the participant's monthly salary at time of death to surviving spouse or domestic partner, less other income sources that are based on the participant's earnings record
 - 1/10 of the participant's monthly salary at time of death to the guardian of each unmarried child under the age of 18, as long as there is no surviving spouse
 - there is no maximum on dependent benefits
 - subject to annual adjustments based on salary indexing
- Survivor benefits are offset by Chapter 102 Worker's Compensation death benefits
- Contributions:**
- Funded entirely by Employer contributions, which vary by experience as detailed in the following table.
