To the Group Insurance Board, State of Wisconsin:

I was unable to attend today's meeting, since I am currently in California visiting family, but I wanted to give you my feedback. I am an employee of the state of Wisconsin and a recipient of group health insurance. I strongly support compliance with the ACA and DHHS's anti-discrimination regulations by including gender reassignment and sexual transformation services as covered benefits. We must meet the medical needs of all members of our community, regardless of gender identity. Access to gender reassignment and and sexual transformation services are a medical necessity for transgender people.

How can I be informed about other meetings the GIB might have on this issue?

Regards,  
Megan Maguire
