Subject: Intent to exclude transgender health care for public employees
Date: Thursday, February 2, 2017 2:39:25 PM

I ask that you strongly reconsider the intent to exclude transgender health care from Wisconsin's public employee health coverage. I was born and raised in Wisconsin and have many friends and family still there, some of whom will be directly effected by this and many of whom find this to be discriminatory as well as short sighted from an economic point of view.

I have always thought Wisconsin is better then this.
