February 12, 2017

Members of the Group Insurance Board,

I am writing to express my dismay at and disapproval of the recent decision to exclude transgendered people when it comes to medical coverage of their treatment. This is inhumane and absolutely unacceptable. I don't believe that such discrimination against a small and vulnerable group of people can be legal. Transgendered people are good citizens and pose no threat. I'm embarrassed to call Wisconsin my state, and I will fight this decision tooth and nail.

Sincerely,

Kirsten Wolf
