Subject: insurance 2018

how were the boundaries set up for the 2018 health insurance. i am forced to choose going to my local chiropractor and eye dr in the county i live in or going to the gi and neuero and general medicine providers i have had for over 20 years in the neighboring county.

because you drew the line in between me and my providers at Mayo- i have a very difficult decision to make

can you please relook at how you do this

both counties i deal with are WEA but because each county is in a different zone- i can only pick one to stay with
