Dear Members of the Group Insurance Board,

[YOUR NAME, title if applicable, and contact info]

WTH? Identify a group of employees and deny them the same benefits other employees are receiving? And please don't cite "religious freedom" nonsense.

THIS is religious freedom: A citizen is allowed to BE any religion she chooses. She can worship in the church/temple/mosque/whatnot of her choice. She can wear clothing of her choice, including headscarves, hijab, hook & eyes closings, etc. She will not be executed nor jailed nor otherwise excluded nor punished for that practice.

AND SO SHALL ALL THE OTHER PEOPLE OUTSIDE ANY SINGLE RELIGION **NOT** BE PUNISHED, EXECUTED, JAILED OR EXCLUDED JUST BECAUSE THEY DO NOT PRACTICE ANY RELIGION.

My tax money has helped to support war, and execution, and police who sometime murder unarmed people for decades and decades now. There are against my religion! I have had no success imposing MY religious convictions.
