Message: Hello

I am unsure of your relationship with the Group Insurance Board or what their level of authority is but I wanted to make a recommendation that the State of WI once again offer a national health insurance provider other than the Access plan which is so expensive so that those of us who live out of state can get medical care from providers in our area vs having to travel to WI for coverage.

I am nearing retirement as well and would like to be able to have a more reasonable option as a retiree than to have my sick leave pay converted to pay for Access or whatever option is available at that time. It was so convenient when Humana was an option because both my spouse and I could see providers here in IL as Humana had a nation-wide network. Any nation-wide provider would be a great option - other than the Access plan as that is so ridiculously expensive.

Thank you. I am hopeful that there may be some significant changes in provider options in the coming years.
