Dear Group Insurance Board Members,

My name is Lynn Olijnyk and I'm an elementary teacher in Waterford, Wisconsin. I've worked here for 34 years and am a proud member of WEAC, the largest labor union in Wisconsin with tens of thousands of members working across the state to provide a great education and support services to nearly 900,000 children and teens enrolled in our public schools.

I am writing today to respectfully request that this board reconsider its past decision refusing to expand coverage for the latest FDA approved anti-obesity medications (AOMs) to ensure that Wisconsin public employee benefits reflect the importance of our work to the functioning of our state and the quality of life that encourages people to live, work, and raise families here. As you know, Wisconsin is a regional outlier in not providing these benefits to its public employees. Fundamental fairness, public health, future budget savings and competitiveness as an employer of choice should dictate that Wisconsin join its peers in providing AOM coverage where clinically indicated by one's health care provider.

Know that including AOMs in the public employee health will improve quality of life and help retain educators.

Thank you for your time.

Sincerely,
Lynn Olijnyk
