When you retire, you are entitled to the higher of a Money Purchase or a Formula retirement benefit. These calculation methods are based on various factors.

	Money Purchase Benefit	Formula Benefit
• Age at retirement		• Age at retirement
• Account balance at retirement		• Final average monthly earnings
• Employee Contributions		• Employment category(ies)
• Employer Matching Contributions		• Years of service
• Accumulated Interest		• Reduction if retiring prior to normal retirement age
		• Adjustments due to participation in the Variable Trust Fund

The projections below reflect your earliest possible retirement age and the age when you can receive an unreduced benefit (no reduction because of age).

If you are currently age:	55	65
Monthly Money Purchase Benefit	\$688 *	\$828 *
Monthly Formula Benefit	\$1,005 *	\$1,182 *

* These unofficial amounts do not reflect future benefits. They are based on your account balances as of January 1, 2019. To project future retirement benefits using this statement, visit the Retirement Calculator at etf.wi.gov/calculator.htm.

* Amounts reflect the highest payment option available that does not protect a beneficiary. At retirement, you will be given other options that do provide death benefits.

* These projections do not include any applicable voluntary additional contributions in Section 4.

* If your earnings or monthly benefit exceeds federal limits under IRC 401(a)(17) or 415(b), your final retirement benefit may be restricted. This determination can only be made upon retirement.

The main content area features a large, illustrative image of a clock, stacks of coins, and a person walking on a beach. The title of the page is "WRS Retirement Benefit" with the subtitle "The benefit that helps secure your future". Below the image, there is a paragraph explaining the system's purpose: "The Wisconsin Retirement System was created to protect public employees and their beneficiaries against the financial hardships of old age and disability, to attract and retain a qualified public workforce, establish modest benefits and achieve administrative savings." A section titled "How the WRS Pension Works" follows, with a bullet point stating: "A defined contribution plan means there is a set amount of money (that may change each year) paid into a member's retirement". On the right side, there is a "Related Resources" sidebar with links to "WRS Guide to Retirement (ET-4133)", "Our Wisconsin Retirement System: Strong for Wisconsin (ET-7100)", and "WRS Retirement Benefit Calculations".
