Why Did Premiums Increase?

Overall health insurance premium increase:

- 15.1% for local government employees

Key drivers for 2024 premium increase:

- Increased pharmacy cost – particularly specialty drugs
- Inflation – costs are higher
- Poor market conditions for 2022

Reminder: Local Employee Premiums

Full local premium rates (with and without dental) and the 88% contribution table (by program option) will be published to the [ETF website](#)

- The 105% contribution table is available upon request

Local employees will receive rate information directly from their employers

Medical Benefit Changes

Coverage has been clarified for advance care planning.

Expectation that physical, speech, and occupational therapies result in significant improvements for patients within two months of the beginning of treatment has been removed.

Medical Benefit Changes – Continued

Requirement of 30-day rental of infusion pumps for insulin, pain relievers, and other drugs prior to purchase of equipment has been removed.

Clarification added to prevent members from possibly being required to move to new in-network facility to receive inpatient care services due to change in health plan provider.

Medical Benefit Changes – HDHP Changes

Annual medical deductible for HDHP and Access HDHP plans for individual and family coverage increased to \$1,600 and \$3,200, respectively, to comply with federal requirements.

HDHP Deductible
