Local government employers participating in the Income Continuation Insurance (ICI) Program *must* contribute toward ICI premiums for all employees who elect coverage.

Check one box to indicate why are you submitting this form:

- Change the elimination period for which the employer pays the gross premium.
- Indicate the elimination period for which the employer pays the gross premium currently for the Insurance Administration System implementation.

Employers are required to pay a *minimum* contribution, which is equal to the gross premium for the 180-day elimination period. Employers may choose to contribute more to employees' premiums in an amount equal to the gross premium for a *shorter* elimination period. As elimination periods become shorter, the premium cost increases.

An employee can choose a shorter elimination period than that offered by their employer, and pay the difference in cost between their choice and the elimination period for which the employer has elected to pay the gross premium.

For example, if an employer elects to pay the full premium for a 90-day elimination period, their employees will not have out-of-pocket premiums unless the employee elects the 60-day or 30-day elimination period. If the employee elected a shorter elimination period, the employee will pay the premium difference between that and the 90-day elimination period.

Elect one elimination period that your employer will pay the gross ICI premium for:

- 30-day elimination period 60-day elimination period
- 90-day elimination period 20-day elimination period
- 180-day elimination period (*required minimum contribution*)
