Average monthly earnings calculation Check the appropriate box to the right. See the *Employer Instructions* on page 2 to determine which method to use.

Previous calendar year earnings
 Projected base earnings (use if employee's previous calendar year earnings do not reflect current year earnings due to one of the following):
 New hire (employee did not have a full year of earnings in the prior calendar year)
 Change in appointment percentage
 Change in hourly rate (higher than previous calendar year earnings)
 Earnings used for prior period of disability/authorized unpaid leave (if higher than previous calendar year earnings)

Average monthly earnings \$ Full time Part time _____%

Employer Instructions

The employee named on the page 1 is applying for an ICI benefit. Please return the completed form to the Department of Employee Trust Funds promptly. *No ICI benefits are payable to your employee until the completed form (and required medical) is received and processed.* The completed form can be emailed to ETFWEB@etf.wi.gov. If you are unable to email it, please fax or send it by mail to ETF.

After completion, please make a copy of this form for your records for future reference. Continue to collect premiums for eligible employees until you receive written notice of approval of the claim. Note that no premiums can be accepted after employment is terminated. When completing the form, also note:

Last day paid is the most recent date for which the employee was paid earnings, including any days for which the employee used paid leave time (e.g. vacation, sick leave, holiday or compensatory time) after their last day worked. **This date is not the date of the employee's last check.**

*Note: Any leave time used after the date the ICI benefit is first payable should be reported to ETF on the ET-5901 *Income Continuation Insurance Report of Employment & Earnings*.*

Average monthly earnings is used to determine benefits as of the date of the disability and uses either:

- Previous calendar year earnings: round to the next higher thousand and divide by 12, **or**
- Projected earnings: If the employee is a new hire or had a permanent change in appointment percentage that is not accurately reflected in the previous year's earnings, estimate the projected base earnings (including add-ons for certain educational degrees, certifications, licenses or credentials) to be received during the ensuing 12 months. Round to the next higher thousand and divide by 12.

Exception: If your employee falls under one of the 2 scenarios below, please calculate average monthly earnings *as of the date of disability* as indicated:

- A. If the employee has received a permanent change in the hourly rate (and is not a new hire or did not have a change in appointment percentage), use the higher of the options below, round to the next higher thousand and divide by 12:
 - previous calendar year earnings, *or*
 - projected base earnings.
- B. If the employee returns after a period of disability/authorized unpaid leave, then goes out on a new disability, use the higher of the options below, round to the next higher thousand and divide by 12:
 - previous calendar year earnings, *or*
 - the same earnings as the prior disability/authorized unpaid leave.

Premium Category/Elimination Period

State Employers: Indicate the premium category that this employee was in during the last 4 calendar years.

Local Employers: Indicate the elimination period the employee elected in each of the last 4 calendar years.

Sick Leave Information — State Employers Only

Report the accumulated sick leave hours as of the employee's last day worked, plus any additional sick leave earned while continuing in pay status. Report sick leave in hours and hundredths of hours (2 decimal places), **not minutes**.

- For most **state** employees who work a standard Monday–Friday work week, sick leave is not utilized on paid legal holidays, so this extends the date sick leave is exhausted. For employees with non-standard work weeks, please attach a copy of their work schedule.
- An ICI claimant who has applied for a Wisconsin Retirement System disability retirement benefit or duty disability benefit may convert (bank) sick leave to pay for health insurance premiums and begin ICI benefits at an earlier date.
 - Determine, with the employee, the date through which sick leave is to be used. If the permanent disability is not approved, the date through which sick leave was used will need to be adjusted.
 - Attach written documentation to the form, which verifies the employee's decision to bank sick leave after a specified date.
