INDIVIDUAL ONLINE Retirement Appointments

An online, secure, private retirement appointment is conducted with an ETF benefits specialist, without the inconvenience of traveling.

Together, you and the benefits specialist will review your *Retirement Benefit Estimate and Application (ET-4301)*, your WRS account, annuity options and the retirement process.

You will need four things:

- computer or laptop
- telephone
- high-speed internet connection
- your ETF retirement benefit estimate and application

Once registered, ETF will send you an email containing a link—click on it at your scheduled time and your secure, online retirement appointment begins. It's that easy!

GROUP Retirement Appointments

An ETF benefits specialist is in your area every month to conduct group appointments. Bring your *Retirement Benefit Estimate and Application (ET-4301)*, which you receive from ETF. At this two-hour appointment, several topics will be discussed, including:

- Your retirement estimate
- Annual annuity adjustments
- Return to work
- Death benefits
- Mailings you can expect to receive from ETF after retirement (and why it's important to keep your contact information up to date with ETF)
